After nearly two hours of hard deconvention of the United Brotherhood Monday in the report of the committee on constitution and laws regarding the City, and went to the Wilson. change in the rules relating to superannuation or old age pensions, suggested by the committee at Friday's session. As the new rule stands members 60 years of age, having been active members for a continuous period of twenty-five years, will receive a pen-sion of \$250 per year, to be paid in quarterly installments. In addition, if the member is unable to earn more than 75 per cent of the standard wage for the locality in which he lives he will be permitted to receive full old age benefits and to do his work as a car-

The matters relating to changes in the apprenticeship system, which were discussed at considerable length Friday of last week, were also brought up after consideration by the committee on conconsideration by the committee on constitution and laws and after a long discussion by delegates was referred to a special committee, to be gone into at great length, and this matter will be trought up again later in the convention. The object of so disposing of the matter was to facilitate business by permitting the regular committee to con-tinue routine matters. The special com-mittee is composed of the following five mittee is composed of the following live members: John Metz, president of the Chicago district council; William Corby of New York; John Clark, president of the San Francisco district council; Peter McLaughlin of Philadelphia and Charles W. Painc, recording secretary of local union No. 76 of New Orieans.

Report Concurred In.

These two matters consumed most of the time of the morning session. The afternoon was devoted principally to routine business. The annual report of President William D. Huber was concurred in by the convention, as was also he report of the general executive board. Many other partial reports of committees were taken up and disposed

General Secretary Frank Duffy said Monday evening that business affairs were being disposed of very rapidly were being disposed of very rapidly and as well as could be expected. Tuesday's session will be taken un with the nomination of the general officers, who will be eeleted by a referendum vote the third week of November. The election of seven delegates to the convention of the American Federation of Labor and the convention of the building trades department of the American Federation of Labor, both of which will be held in of Labor, both of which will be held in Denver in November, will take place Tuesday. It is expected that the election of these fourteen delegates will take up the entire day, but in case matters should move more rapidly the choice of the party of o the next convention city will also be discussed.

Des Moines in Lead.

Up to the present time the indica-tions favor Des Moines as the place of the next biennial convention. Secretary Duffy received a telegram Monday from Governor Cummings of Iowa in-viting the Brotherhood to come to Des Moines for the convention of 1910. Governor Cummings is a member of the Brotherhood and it is expected that his invitation will have great weight with the delegates. Other cities which are making a strong fight for the next convention are Denver and San Fran-cisco. Originally Sacramento and Tam-pa. Fla. were in the list, but recently there has been little said of these two Reports from delegates are enthusias-

tic over the entertainment they have received in this city. Sunday was passed by many of them in the canyons and in looking about the city. Numbers of them visited the different churches of the city also. Only expressions of de-light are heard from the visitors and if there is a dissenting voice in the con-vention as to the manner in which Salt Lake has exhibited her hospitality it has not been heard. Further entertainments for the visit-

ors are the trip to Bingham on Wednesday and the banquet at Armory hall Thursday evening. The convention will adjourn Saturday afternoon.

### IMPORTANT CALL FOR AMERICAN SIGNATURES

In order that a Taft-American ticket and a Bryan-American ticket shall be placed on the ballots for the approaching election, it will be necessary for Americans to sign petitions asking for this, Five hundred names of legal voters will be required on each petition. The petitions must be filed within the next five days to be legal.

When the Taft-American ticket has been petitioned for it will contain the three Taft electors and the American state, judicial, county and city tickets. This will enable an American Republican to vote for president and the American state and local tickets without scratching.

The same will be true of the Bryan-American ticket. Petitions will be found at The Tribune and Telegram business offices and at American party headquarters. Every American voter who can possibly do so should sign one or the other of these petitions. ONLY SIGN ONE, HOWEVER, and it matters not whether you be a Democrat or a Republican. The petition is to oblige the officials of Utah to place the tickets in the field as petitioned for.

A straight American ticket also will be placed in the field for those who do not care to vote for president. Go to the above-named places today or tomorrow and sign the petitions. This is most important and should not be neglected.
